

Hi Everyone,

As everyone knows it has been awhile since ARF had an Update...

Well the story begins:

ARF received an urgent email from the director of an animal shelter in Mississippi. There was no more room, they were completely out of space, and needed to place 35 puppies and dogs in a rescue immediately or they were all going to be euthanized. With only a few days to plan, a group of volunteers, staff and ARF's Board members planned the trip to Mississippi.

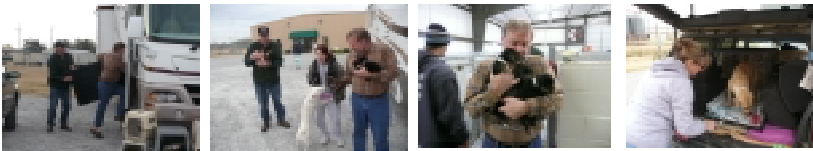

December 4<sup>th</sup> Patty and John Bowers and their friend John Bailey left in their motor home to rescue 30 puppies and 5 adults. Wayne flew out and met them in Mississippi to help with assessing the pups and to help with the drive back.

Needless to say the trip did take longer than expected due to a flat tire along the way and Wayne was held up at the airport in Chicago due to bad weather

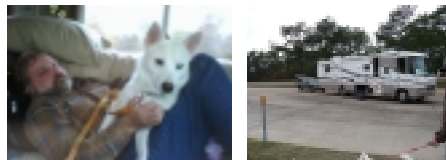

The four travelers arrived in Mississippi on December 6<sup>th</sup> at the Cleveland/Bolivar County Shelter.

December 7<sup>th</sup> at 8:00 am the four loaded up the motor home with the pups

and started their trip back home.

The story continues next week in our weekly Update.
